

Topic Overview Autumn

Areas of learning

As scientists we will learn about forces and magnets. We will explore what types of forces there are and how they work in action. Following this we will investigate magnets; how they attract, repel and react to different materials.

As musicians we will study how the influence of the UK in the world, lead Edward Elgar to write a song called 'Land of Hope and Glory'. We will learn the length of musical notes and how we can play these on tuned and untuned instruments.

As geographers we will recap the names of countries and main ports in the UK, that link the UK with other countries. We will use atlases to locate major mountains and mountain regions in the UK and research some amazing places of beauty. We will study the UK's longest and local rivers, including a study of the journey of a river from source to mouth. We will carry out a local study of the River Humber where we will explore

Community

As responsible members of a community we will be learning about our local rivers and landmarks.

In PSHE we will explore what it means to be part of a community and who the people in our circle are. We will look at what makes a strong community.

Environment

Discuss the local environment and the rivers that are in our area. Explore the issues surrounding pollution on a local and national basis. Following this discuss how we can work as a school to help keep our local environment and community safe.

British Values

As people who understand and uphold British Values we will celebrate Remembrance Day and learn about significant landmarks. Through out RE and PHSE lessons we will learn about mutual respect.

Diversity and beliefs

We will learn about the faith founders and how the 6 main religions began. We will celebrate diversity of faiths in our class and as a whole school for multicultural week. Furthermore we will explore what it means to belong to a particular faith.
